A new era dawning...

RETHINK WAYS OF WORKING

Need for customized, co-developed solutions by MNOs in collaboration with enterprise customers

RETHINK SPECTRUM LICENSING

Shared use/local licenses may be needed to unlock the full potential of private networks

RETHINK MARKET ADOPTION

New market opportunities, Security & privacy, Ease of deployment are key factors

RETHINK COMPETITION

New players have already entered the market and compete with the MNOs

Thank you!
